

REPORT CARD DAY

UPDATES AND PROCESS

The team at Zenith International School successfully organized our Report Card Day last week Saturday (7/9/2020). Parents were requested to only send one representative/parent to accompany their children to meet their respective teachers in order to adhere to the guidelines set by the Ministry of Education.

It was a challenging task but the teachers and school support staff worked together to ensure that the event went smoothly. All teachers and staff were assigned with duties with staff being assigned to various locations within the White House Campus. Staff assigned to the guard house recorded the name & temperature of the parent attending. Once in the lobby, the parent and students were greeted by a teacher and escorted to the gathering point to collect the report cards of the students.

Meetings/Consultations with the teachers was the next stage – where the parent with accompanying student/child went to meet the subject teachers to gain insight into their child’s education. Subject teachers were segregated into different groups in different rooms to ensure social distancing guidelines were followed. Parents were also able to talk to their child's class teacher to further assess the child’s/student’s performance and behaviour at school. This is important to ensure that any disciplinary issues or poor performance in exams can be addressed by the parents with the assistance of the teachers at Zenith International School.

The Report Card Day @ Zenith International School was well managed and considered to be a successful event even with all the RMCO SOPs and guidelines in place.
